IMMUNOLOGY

CONTENTS

Vol. 50 No. 1 **September 1983**

M. E. MEDOF & G. M. PRINCE: Alternative pathway-mediated rebinding of immune complexes to human red blood cells 1

M. E. MEDOF & G. M. PRINCE: Immune complex alterations occur on the human red blood cell membrane 11

C. G. B. PETERSON & P. VENGE: Purification and characterization of a new cationic protein—eosinophil protein-X (EPX)—from granules of human eosinophils 19

FRANÇOISE MAILLET & M. D. KAZATCHKINE: Modulation of the formation of the human amplification C3 convertase of complement by polycations 27

E. J. GOETZL, L. L. BRINDLEY & D. W. GOLDMAN: Enhancement of human neutrophil adherence by synthetic leukotriene constituents of the slow-reacting substance of anaphylaxis 35

G. VIRELLA, MARIA F. L. LOPES-VIRELLA, CAROL SHULER, T. SHERWOOD, G. A. ESPINOZA, P. WINOCOUR & J. A. COLWELL: Release of PAF by human polymorphonuclear leucocytes stimulated by immune complexes bound to Sepharose particles and human erythrocytes 43

T. SMINIA, F. DELEMARRE & E. M. JANSE: Histological observations on the intestinal immune response towards horseradish peroxidase in rats 53

E. TUNG, J. M. GOUST, W. Y. CHEN, S. S. KANG, I. Y. WANG & A. C. WANG: Cytotoxic effect of anti-idiotype antibody–chlorambucil conjugates against human lymphoblastoid cells 57

R. M. J. PALMER & J. A. SALMON: Release of leukotriene B_4 from human neutrophils and its relationship to degranulation induced by *N*-formyl-methionyl-leucyl-phenylalanine, serum-treated zymosan and the ionophore A23187 65

NORIKO OKADA, T. YASUDA, T. TSUMITA & H. OKADA: Activation of the alternative complement pathway by natural antibody to glycolipids in guinea-pig serum 75

M. HIRASHIMA, K. TASHIRO, Y. HIROTSU & H. HAYASHI: The mediation of tissue eosinophilia in hypersensitivity reactions. V. Comparative study of tissue eosinophilia in the skin lesions of local and systemic passive cutaneous anaphylactic reactions. 85

A. RATCLIFFE & D. R. STANWORTH: The localization of the binding site(s) on human IgG1 for the Fc receptors on homologous monocytes and heterologous mouse macrophages 93

P. N. SHEK & T. D. HEATH: Immune response mediated by liposome-associated protein antigens. III. Immunogenicity of bovine serum albumin covalently coupled to vesicle surface 101

M. R. DAHA & L. A. VAN ES: Complement-dependent inhibition of degradation of soluble immune complexes and immunoglobulin aggregates by thioglycollate-stimulated peritoneal macrophages 107

K. SUGANE & T. OSHIMA: Purification and characterization of excretory and secretory antigen of *Toxocara canis* larvae 113

A. A. CZITROM & N. R. J. GASCOIGNE: Primary T-cell responses to minor alloantigens. I.

Characterization of cytotoxic effector cells generated from regional lymph nodes after immunization in the footpad 121
R. M. Abdallah, Jean R. Starkey & G. G. Meadows: Alcohol and related dietary effects on mouse natural killer-cell activity 131
Ruth Gallily & N. Savion: Cultivation, proliferation and characterization of thymic macrophages 139
T. Suzuki, M. Miyama-Inaba, T. Masuda, H. Uchino, A. Murakami & H. Tanaka: Suppressive B-cell factor (SBF) produced by FcRγ-bearing B cells; suppression of B, but not non-B-cell proliferation 149
W. G. Kimpton, D. C. Poskitt, G. W. Dandie & H. E. Muller: The migration of blood-borne lymphocytes into rat popliteal lymph nodes stimulated with xenogeneic red blood cells 159
Elizabeth J. Glass, J. Stewart & D. M. Weir: Membrane changes in murine macrophages after *in-vivo* stimulation and activation 165

Vol. 50 No. 2 **October 1983**

Important announcement to Contributors ii
T. Skogh, L. Edebo & O. Stendahl: Gastrointestinal uptake and blood clearance of antigen in the presence of IgA antibodies 175
J. B. Smith: Frequency in human peripheral blood of T cells which respond to self, modified self and alloantigens 181
H. Bielefeldt Ohmann, L. G. Filion & L. A. Babiuk: Bovine monocytes and macrophages: an accessory role in suppressor-cell generation by Con A and in lectin-induced proliferation 189
H. Kawauchi, K. Taniguchi, C. Kubo, Y. Shimamoto & K. Nomoto: The mechanism of reduction of cell-mediated cytotoxicity in neonatally thymectomized mice 199
L. J. Alfred, A. Wojdani, Maria Nieto, R. Perez & G. Yoshida: A chemical carcinogen, 3-methylcholanthrene, alters T-cell function and induces T-suppressor cells in a mouse model system 207
C. Doinel, L. Edelman, Ph. Rouger, J. Leblanc, J. Reviron, J. F. Bach & Ch. Salmon: A murine monoclonal antibody against blood group H type-1 and -2 structures 215
Eugenia Fishbein, J. Alcocer-Varela & D. Alarcón-Segovia: Cellular bases of the production of and response to interleukin-2 in man: role of autologous rosette-forming T-cell subsets defined with monoclonal antibodies 223
N. Yamaguchi, S. Shimizu, A. Hara & T. Saito: The effect of maternal antigenic stimulation upon the active immune responsiveness of their offspring 229
D. M. Mitchell, P. C. L. Beverley, Donna G. Boyle, L. A. Winger & R. E. Callard: Accessory cell and HLA compatibility requirements for the generation of specific *in-vitro* antibody responses to influenza virus by human blood lymphocytes 239
J. V. Forrester, P. C. Wilkinson & J. M. Lackie: Effect of modified $\alpha_2$macroglobulin on leucocyte locomotion and chemotaxis 251
Moshe M. Werber, D. Daphna, J. Goldman, D. Joseph, J. Radnay & L. A. Rozenszajn: Identification and partial purification of human T lymphocyte colony-enhancing factor (LCEF), distinct from T cell-growth factor 261

L. WALKER, G. D. JOHNSON & I. C. M. MACLENNAN: The IgG subclass responses of human lymphocytes to B-cell activators 269
T. J. HALL & J. BROSTOFF: The lack of effect of histamine–protein conjugates on human lymphocyte responses to concanavalin A and histamine 273
R. PABST & K. PÖTSCHICK: Proliferation and emigration of newly formed lymphocytes from pig spleens during an immune response 281
D. B. THOMAS & M. W. KENNEDY: Feedback control of the secondary antibody response. I. A suppressor, suppressor-inducer mechanism from the interaction of B-memory cells with Lyt 2^- T cells 289
M. W. KENNEDY & D. B. THOMAS: Feedback control of the secondary antibody response. II. Differences in the rate of induction of T-helper and T-suppressor memory 297
M. M. WILDERS, T. SMINIA & E. M. JANSE: Ontogeny of non-lymphoid and lymphoid cells in the rat gut with special reference to large mononuclear Ia-positive dendritic cells 303
Brief communication
A. P. WEETMAN, A. M. MCGREGOR & R. HALL: Thyroglobulin uptake and presentation by macrophages in experimental autoimmune thyroiditis 315
BOOK REVIEWS 319
ERRATUM 325

Vol. 50 No. 3 **November 1983**

Important announcement to Contributors i
D. CHASSOUX, J. P. KOLB, H. BAZIN & I. C. M. MACLENNAN: Antibody-dependent cellular cytotoxicity (K) and natural killing (NK) in B-suppressed germ-free nude rats 327
A. J. KULBERG, I. M. SICHEVA, B. L. YURIN, I. A. TARKHANOVA, I. S. FREIDLIN & V. D. KRAVTSOV: Antibodies against Fc receptors to aggregated IgG of mouse spleen cells: selective blocking of the receptors of splenocytes and peritoneal macrophages, and abolition of the phagocytosis enhancement produced by the opsonizing IgG antibodies 335
T. EZAKI, M. A. SKINNER & J. MARBROOK: Spontaneous cytotoxic T cells in murine spleen-cell cultures. I. Some characteristics of effector and precursor cells 343
T. EZAKI, M. A. SKINNER & J. MARBROOK: Spontaneous cytotoxic T cells in murine spleen-cell cultures. II. Distinguishing between spontaneous cytotoxic T cells and NK cells according to kinetics and target selectivity 351
DIANA BORASCHI, P. GHEZZI, ELENA PASQUALETTO, M. SALMONA, L. NENCIONI, D. SOLDATESCHI, L. VILLA & A. TAGLIABUE: Interferon decreases production of hydrogen peroxide by macrophages: correlation with reduction of suppressive capacity and of anti-microbial activity 359
E. KITA & S. KASHIBA: Immunogenicity of transfer RNA isolated from a two-heptose rough mutant of *Salmonella typhimurium* LT2 in mouse typhoid infection 369
M. K. BRENNER, CHRISTINE A. NEWTON, MARGARET E. NORTH, CHRISTINE WEYMAN & J. FARRANT: The interaction of specific T-cell help and non-specific B-cell growth factors in the production of anti-tetanus antibody by human B cells grown in serum-free microcultures 377
C. D. ALLEY, R. P. MACDERMOTT, G. S. NASH & M. J. BERTOVICH: Suppression of *in-vitro*

antibody production by pokeweed mitogen-stimulated human bone-marrow mononuclear cells. Evidence for a soluble suppressor substance 387

J. B. LAMB, E. D. ZANDERS, M. FELDMANN, P. LAKE, D. D. ECKELS, J. N. WOODY & P. C. L. BEVERLEY: The dissociation of interleukin-2 production and antigen-specific helper activity by clonal analysis 397

D. J. SMITH, J. L. EBERSOLE & M. A. TAUBMAN: Local and systemic immune response in aged hamsters 407

P. A. JUDSON, FRANCES A. SPRING, M. ANN TAYLOR & D. J. ANSTEE: Evidence for carbohydrate-deficient forms of the major sialoglycoproteins of human platelets, granulocytes and T lymphocytes in individuals with Tn syndrome 415

M. KAKINUMA, K. ONOÉ, R. YASUMIZU & K. YAMAMOTO: Strain differences in lung granuloma formation in response to a BCG cell-wall vaccine in mice. Failure of antigen presentation by low-responder macrophages 423

C. M. LEWIS & C. E. BISHOP: Apparent alteration in MHC antigens in K36.16, an AKR thymoma, does not result in genetic rearrangement 433

J. E. KAY, C. R. BENZIE & A. F. BORGHETTI: Effect of cyclosporin A on lymphocyte activation by the calcium ionophore A23187 441

D. G. HAEGERT & MARTINA TIMM: Expression of immunoglobulin-cross-reactive molecules by neoplastic human T cells. I. Surface detection and isolation of molecules reactive with chicken anti-$F(ab')_2$, anti-α, and anti-μ antibodies 447

R. N. POSTON & R. S. MORGAN: Interactions between soluble IgG, complement and cells in lymphocyte and monocyte ADCC 461

A. D. HO, D. D. F. MA, G. PRICE, W. HUNSTEIN & A. V. HOFFBRAND: Biochemical and immunological differentiation of human thymocytes induced by thymic hormones 471

A. GUNN, D. SCRIMGEOUR, R. C. POTTS, L. A. MACKENZIE, R. A. BROWN & J. SWANSON BECK: The destruction of peripheral-blood lymphocytes by extracorporeal exposure to ultraviolet radiation 477

M. B. HALLETT & A. K. CAMPBELL: Direct measurement of intracellular free Ca^{2+} in rat peritoneal macrophages: correlation with oxygen-radical production 487

P. STEVENS, L. S. YOUNG & S. ADAMU: Opsonization of various capsular (K) *E. Coli* by the alternative complement pathway 497

P. LEHNER, PATRICIA HUTCHINGS, P. M. LYDYARD & ANNE COOKE: Regulation of the immune response by antibody. II. IgM-mediated enhancement: dependency on antigen dose, T-cell requirement and lack of evidence for an idiotype-related mechanism 503

Brief communication

NICOLE LYSCOM & M. J. BRUETON: The impact of post-weaning protein malnutrition on intraepithelial and Peyer's patch lymphocyte sub-types in rat small bowel 511

BOOK REVIEWS 515

Vol. 50 No. 4 **December 1983**

Important announcement to Contributors i

C. D. BARONI, M. VALTIERI, ANTONELLA STOPPACCIARO, L. P. RUCO, STEFANIA UCCINI & C. RICCI: The human thymus in ageing: histologic involution paralleled by increased mitogen response and by enrichment of $OKT3^+$ lymphocytes 519

N. Semeraro, A. Biondi, R. Lorenzet, D. Locati, A. Mantovani & M. B. Donati: Direct induction of tissue factor synthesis by endotoxin in human macrophages from diverse anatomical sites 529

G. S. Le Gros, R. L. Prestidge & J. D. Watson: *In-vivo* modulation of thymus-derived lymphocytes with monoclonal antibodies in mice. I. Effect of anti-Thy-1 antibody on the tissue distribution of lymphocytes 537

A. McI. Mowat & Delphine M. V. Parrot: Immunological responses to fed protein antigens in mice. IV. Effects of stimulating the reticuloendothelial system on oral tolerance and intestinal immunity to ovalbumin 547

A. A. Czitrom & Marjorie Liddell: Primary T-cell responses to minor alloantigens. II. Analysis of accessory cell requirements for the development of cytotoxic T lymphocytes 555

S. M. Hobbs, Jennfier M. Styles, C. J. Dean & P. S. Shepherd: Clearance of antibodies from rat sarcoma cell surfaces. Rate of clearance of alloantibodies depends on antibody isotype 565

T. Suzawa, S. Hyodo, T. Kishi, H. Kashiwa, E. Kittaka, T. Sakano & T. Usui: Induction of human T-lymphocyte colonies by phorbol myristate acetate 575

I. M. Orme & F. M. Collins: Infection with *Mycobacterium kansasii* and efficacy of vaccination against tuberculosis 581

S. Shiozawa, K. Shiozawa & T. Fujita: Presence of HLA-DR antigen on synovial type A and B cells: an immunoelectron microscopic study in rheumatoid arthritis, osteoarthritis and normal traumatic joints 587

T. Suzuki, M. Miyama-Inaba, T. Masuda, H. Uchino & K. Ishii: Monoclonal SBF produced by a hybridoma: *in-vitro* and *in-vivo* suppression of B tumour-cell proliferation 595

H. Tamauchi, T. Tadakuma, T. Yasuda, T. Tsumita & K. Saito: Enhancement of immunogenicity by incorporation of lipid A into liposomal model membranes and its application to membrane-associated antigens 605

T. E. Adams, Julia G. Bodmer & W. F. Bodmer: Production and characterization of monoclonal antibodies recognizing the α-chain subunits of human Ia alloantigens 613

J. D. Sedgwick & P. G. Holt: Induction of IgE-isotype specific tolerance by passive antigenic stimulation of the respiratory mucosa 625

Seiko Ito & N. Tamura: Inhibition of classical C5 convertase in the complement system by factor H 631

P. R. Wood, L. Andrus & I. A. Clark: Production of lymphocyte activating factor 637

Kareen J. I. Thorne & D. Franks: Importance of oxidative metabolism in T cell cytotoxicity: a comparison of cloned T cells and spleen cells 645

A. S. M. Giasuddin, T. Lehner & R. W. Evans: Identification, purification and characterization of a streptococcal protein antigen with a molecular weight of 3800 651

J. R. Lamb & Nicola Green: Analysis of the antigen specificity of influenza haemagglutinin-immune human T lymphocyte clones: identification of an immunodominant region for T cells 659

Brief communications

A. Shalev & F. Zuckerman: A cell-free soluble-phase radioimmunoassay Thy-1 antigen 667

Michiko Nishi, K. Yan & Y. Bito: Immature chicken B cells with immunocompetence restricted to IgM type do not elicit the formation of germinal centres 671

Book reviews 675
